Passage 2 Listen to the passage and answer the questions below

Hi everyone! My name is Sarah, and I am a 20-year-old university student in Toronto. This semester, I am taking Biology, Spanish, and World History. History is definitely my most difficult subject because there are so many dates to memorize! Fortunately, my professors are very supportive and always willing to explain things after class.

I live in a small apartment on King Street, which is just a ten-minute walk from the main library. I share the apartment with two other students named Emma and Chloe. We usually study together in the kitchen during the week, and on Saturday mornings, we like to go jogging in the nearby park.

I have an older sister named Maya who works as a graphic designer in Vancouver. Since she is very busy with her job, she cannot visit often, but when she does, she always bakes my favorite chocolate chip cookies. I always look forward to her visits because I miss her a lot!
